## Multiplication Word Problems

1. Sarah has 3 bags of marbles. Each bag contains 5 marbles. She then doubles the number of marbles she has. How many marbles does Sarah have now?

2. A school has 2 classes. Each class has 7 students. Each student brings 3 books to school. How many books are brought to school in total?

3. John runs 4 miles every day. After running for a week (7 days), he doubles the distance he has run. How many miles has he run in total?

4. A library has 5 shelves. Each shelf contains 6 books. Each book has 10 pages. How many pages are there in all the books?

5. There are 4 boxes of pencils. Each box contains 7 pencils. Each pencil is 8 inches long. What is the total length of all the pencils?
